

FOR EXCELLENCE IN COMMUNICATING CURRENT CONSERVATION ISSUES

As our society becomes more urbanized, humans have fewer opportunities to interact directly with nature. Television, movies, art and photography have become crucial links that connect us to the natural world. Through media and the visual arts, conservationists alert us to today's important environmental issues. They help us develop a greater understanding of the complex relationships upon which all life depends.

About the Sutton Center.

The George Miksch Sutton Avian Research Center is a nationally-renowned, non-profit organization, whose mission is to “find cooperative conservation solutions for birds and the natural world through science and education.”

The Sutton Avian Research Center admires and has honored talented, professional conservationists who capture the beauty of our planet with film, photos, art and music, and then bring it into our classrooms and living rooms for our appreciation, enjoyment and education.

In 2018, for the fourteenth time, the Sutton Avian Research Center in partnership with NatureWorks and other sponsors, will honor talented high school students for excellence in conservation communication. Selected instructors of winning students will also be honored.

About the Sutton Award.

The Sutton Award recognizes high school students, grades ten through twelve, who demonstrate the ability to communicate current conservation topics in compelling ways.

The Sutton Award is comprised of up to \$20,000 in cash to be distributed among students, and among selected instructors of winning students as determined by the selection committee.
